Solana Beach School District Introduces New Superintendent

The Solana Beach School District Board of Education is pleased to announce Dr. Nancy Lynch as the finalist for the superintendent position. Dr. Lynch comes to Solana Beach from Placerville Union School District where she has served as superintendent since 2007. With more than twenty-four years of education experience, she has served as an elementary teacher, principal, and district office administrator in Palm Springs and Beverly Hills. Ratification of the contract is scheduled for the regularly scheduled meeting of the Board of Education on February 9, 2012.

Dr. Lynch brings a range of experience and expertise that matches the needs and demands of Solana Beach. Her teaching and administrative leadership will support Solana Beach School District's continuous improvement efforts and commitment to enhancing and enriching learning for all students.

"Dr. Lynch is a perfect match to lead Solana Beach School District at this time", said Jeff Busby, Board President. "She has demonstrated her commitment to student learning, effective communication with both staff and community, and the ability to openly collaborate with all stakeholders."

Dr. Lynch has said, "I am honored to have been selected for the position of Solana Beach superintendent and I look forward to joining such an exceptional school district team and supportive community."

Dr. Lynch will begin her assignment in Solana Beach in April.
