Online Registration begins March 1st!

Registration deadline is March 28th.

To Register, go to <http://www.solanabeachcdc.com/>

Solana Vista Spring 2019 Enrichment

M O N D A Y	<p>Intro to Game Design (1-3): Don't just play games...make them! Learn introductory computer and programming skills while having a blast with your fellow game designers. We'll teach you the basics, explore different strategies by redesigning class games and challenge you and your classmates to build something completely new! Will you craft the next hit game? Sign up to find out!</p> <p>Chess: Socratic style seminars for all levels. Practice joins theory with play every week and a team event on our life size chess board is set for the final class. "The Evans Method" is used in dozens of schools throughout San Diego and was featured on The Tonight Show and Inside Edition. Students learn in an exciting, cumulative merit forum that rewards participation with prizes every week. At the end of the session, all participants will receive an individualized trophy.</p>
T U E S D A Y	<p>Cre8 Art: As students travel to far off lands, they will be inspired by the people, traditions, habitats and animals that live throughout the world. They will take a closer look at the tundra regions of Antarctica, the Australian Outback and the vibrant cities of South America. Each week, students will examine maps, look at images from each continent, listen to music from specific areas, and, of course, create art pieces inspired by different regions of the world. Using a wide array of mediums, students will fashion colorful aboriginal boomerangs, watercolor delicate Japanese scrolls and create whimsical mixed media penguins. This session is an amazing opportunity for the students to learn about all the incredible cultures around the world.</p> <p>Mad Science: Join Mad Science for fun and exciting hands-on science exploration. Become a Science Spy and learn how to send secret messages using special codes. Wrestle with the strength of air and experiment with invisible forces that have incredible power. Explore the fascinating abilities of the human body and conduct experiments to discover how your heart and lungs work. Experiment with substances that create amazing reactions.</p> <p>Tennis: Come learn how to play tennis! Lesson will include warm-up, stroke analysis, stroke adjustments, basic fundamentals, and fun games. All skill levels are welcome. Rackets are provided.</p>
W E D N E S D A Y	<p>Minecraft: The immersive game of Minecraft is a crowning achievement of modern technological creativity and innovation, a tool for students to create a unique world in which to build anything they can imagine. Students will use Minecraft as a gateway into team-building, problem solving and resource management - all while having fun! This virtual world is yours to explore, build, and create in any way you want. Students explore the hidden potential of this popular game as they learn about construction and architecture in their very own computer-generated world.</p> <p>Piano: Kids will have the opportunity to learn to play their favorite songs and music on electric keyboards. Radio hits, movie and television themes are made so easy, that our participants will be playing them after the very first class! The club is a combination of keyboard piano lessons and a music learning workshop, which uses a clever visual method to teach the basics of music reading and piano playing. We have developed lots of learning games and activities designed to instruct students in the fundamentals of music theory, in ways that are fun, engaging, and stimulating.</p>
T H U R S D A Y	<p>Monart: In this brand-new themed class, students will learn fascinating facts about baby animals as well as learn how to draw them using the Monart drawing method. At Monart we teach that drawing is a teachable skill at which everyone can be successful. Students will learn how to use a variety of mediums such as colored pencil, markers, chalk & oil pastels, watercolor and mixed media. Students will vote on the lesson plans taught for this theme as a class.</p> <p>Yoga: This is a one hour children's yoga/exercise class geared towards encouraging children's health and fitness. Each class will consist of the following: fun age appropriate yoga poses, breathing exercises, group poses, and fun yoga games.</p>
