University of California Cooperative Extension Ventura County  
and California Children's 5 a Day-Power Play! Campaign

## *Classroom parties can be fun and healthy*

Everybody loves a party! From Valentine's Day to the Winter Holidays the opportunities to celebrate in the classroom are endless. Classroom parties can help teach children valuable social skills such as helping to prepare the food, sharing with others, and cleaning up after themselves. Who says food can't be fun?

If healthy foods are chosen as part of the festivities, it can be an opportunity to reinforce nutrition lessons as well. Students learn by example, such as

demonstrations of food preparation. By increasing children's awareness and encouraging them to eat 5 servings of fruits and vegetables every day, we can help them develop life-long healthy habits.

We have the chance to show students how easy it is to prepare nutritious and delicious food that they can enjoy at any time of the year. What better way to celebrate health than in the classroom!
