## Solana Beach School District Announces *ImmersiveEDU* Educational Program For the 2021-22 School Year and Upcoming Family Information Night

SOLANA BEACH, CA (May 6, 2021) – The Solana Beach School District announces the launch of ImmersiveEDU, where teaching and learning is reimagined. An upcoming “Family Information Night” via Zoom is scheduled for 5:00 p.m. on Tuesday, May 11, to share details about the new educational opportunity for the 2021-22 school year. In a flexible environment, including virtual and optional in-person learning settings, ImmersiveEDU students will be engaged in inquiry-based teaching and learning and real-world applications through project-based learning. These experiences will include local and global partnerships and stem from a culturally responsive lens of teaching and learning.

The program offers enrichment clusters where students have the choice to engage in learning activities, including learning other languages and/or participating in projects where students can focus on their own passions; driving their own learning. ImmersiveEDU students will not only have opportunities to participate in learning experiences based on interests, they will also engage actively in the process of learning. This component will include a focus on exhibiting learning; an opportunity for students to discuss key learning experiences, in addition to presenting on their final products.

ImmersiveEDU students will have optional in-person academic and social opportunities to expand and foster all aspects of learning.

All SBSB families interested in learning more about ImmersiveEDU can join the Zoom meeting shown below on Tuesday, May 11, at 5:00 p.m.
